### BENEFITS

- Helps to reduce the appearance of wrinkles
- Helps to boost skin luminosity and brightness
- Helps to restore hydration and firmness

### ABOUT GAVÉE GOLD'S PROPRIETARY INGREDIENT COMPLEX

All Gavée Gold products contain a proprietary blend of naturally derived, high performance, ultra-purified ingredients to rapidly rejuvenate the skin's appearance without adverse reactions.

### FEATURES

**24K Liquid Gold** – Metal-free and organically purified over 30 years, this elemental form of liquid gold acts as a powerful catalyst to increase the performance of all active ingredients that reduce roughness and inflammation, help slow collagen breakdown, firm the skin, and improve radiance.

**Cell Salts** – Bioavailable salts provide essential minerals often deficient in the skin. Cell salts help to soften and rejuvenate rough, damaged skin and leave a supple, healthy glow.

**Ozonated Omega Oils** – A combination of egg oil and hemp oil provides all three essential fatty acids—omegas 3, 6 and 9—and oxygenates skin with cosmetic-grade ozone. Helps destroy bacteria, soothes irritated skin, calms redness, and rejuvenates dull skin.

AVAILABLE IN 50ML

## KEY INGREDIENTS

Our blend of powerful active ingredients shows significant results in the areas of skin firmness and brightness.

### **Phyllostachys Pubescens Callus (Bamboo) Culture Extract**

Multiple anti-aging benefits as it helps stimulate the production of collagen, elastin, and hyaluronic acid thereby decreasing wrinkles and leaving a firmer epidermis.

**Camellia Sinensis (Green Tea) Leaf Extract** - A powerful antioxidant that helps slow the signs of aging and increase skin brightness.

**Hexapeptide-33** - Helps minimize the growth of fibroblasts under extreme aging stressors, reducing the length of wrinkles and the appearance of age spots.

**Trifluoroacetyl Tripeptide-2** - A biomimetic peptide derived from elfin, which helps the appearance of wrinkles and sagging skin for a rejuvenating effect.

**Plankton Extract** - Reduces dark spots and is critical for the rejuvenation of UV-induced DNA damage.

**Prunus Amygdalus Dulcis (Sweet Almond) Seed Extract** - A mild, highly absorbable oil high in vitamin E, which makes for an effective antioxidant that helps slow the aging process.

**Malus Domestica (Apple) Leaf Cell Culture Extract** - A plant stem cell from this rare apple helps skin stem cells maintain their capacity to build healthy skin; also has anti-wrinkle effect and ability to decrease dark spots.

## EFFECTS OF PLANT C STEM™

Using a single serum with just .05% of Phyllostachys Pubescens Callus (Bamboo) Culture Extract Stem Cells, Plant C Stem™ by Innovacos™ significant results were shown in the area of skin firmness and collagen synthesis.

ELASTASE INHIBITION (%)

CONCENTRATION OF GREEN TEA  
VACUOLE EXTRACT

COLLAGEN SYNTHESIS INCREASE (%)

CONCENTRATION OF BAMBOO  
VACUOLE EXTRACT

## EFFECTS OF PLANT STEM CELLS

Using a single serum of just 2% Hexapeptide-33 (W-3 Peptide™) significant results were shown in skin brightness. W-3 peptide reduces quantity of age spots.

DAY 0

DAY 28

Skin toning lotion containing 2% W-3 peptide or was applied on full face 2 times/day for 28 days to 12 volunteers (women 34-49 years old). Quantity of age spots was measured by a VISIA Evolution (Canfield, US). \* $p < 0.05$ .

Using a toning serum of just 2% Trifluoroacetyl Tripeptide-2 (Progeline™) significant results were shown in skin firmness, elasticity and viscoelasticity.

DAY 0

DAY 28

DAY 56

Test protocol. Three healthy volunteers (women 54 to 66 years old with sagging skin. A cream containing 2% Progeline™ was applied on split-face and split-neck, two times per day (morning and evening) for 28 days.

### APPLICATION AND USAGE

Use at night on clean skin. Alternate with Sun C Peptides for stubborn brown spots. Powerful enough to be used as a standalone product or as part of a daily regimen. Good for all skin types.

*"Greetings from a very happy customer. I am already getting great results from my GG products and my husband and son are "sharing them" with me. They use the Diamond Cell Salt with the Liquid Gold Peptides and I keep having to take it back to my powder room....I definitely look younger and ended up skipping my Fraxel appointment!" –Heidi Farrell, NewBeauty Influencer*

Tiffany Andersen has been a top Las Vegas medical aesthetician and holistic health practitioner for more than twenty years. She discovered a jewel at the heart of skincare and developed the Gavée Gold Anti-Aging Skincare Collection (pronounced JAH-vay Gold). Tiffany's passion to create a safe and effective skincare line began after she survived two tragic life events: a traumatic car accident that nearly left her paralyzed, and stage IV cancer.

From this, she learned her body greatly struggled to filter toxins. With the support of Dr. Jin Lee, Tiffany began intensive research, working closely with a highly respected biochemist and clinical pharmacist to develop a toxin-free, high performing skincare line. Tiffany's newly discovered organic elements have been processed over long periods of time to naturally concentrate the vital nutrients.
